LEASE OPPORTUNITY

Burlington Gallery is the only enclosed mall on the Interstate 5 corridor in Skagit County and is located in Burlington, nicknamed the Hub of Skagit County because Burlington is located at the crossroads of Interstate 5 and State Highway 20, the primary east/west corridor in northwest Washington. Once a vibrant retail mall, the property is now undergoing a conversion similar to many former regional malls throughout the U. S. Four major tenants anchored Cascade Mall previously in suites that are the focus of the current marketing effort:

- JCPenney - 49,666 sf (Suite 300)
- Macy's Men's/Children's/Home - 50,625 sf (Suite 500)
- Macy's Women's - 60,000 sf (Suite 700)
- Sears - 73,945 sf (Suite 600)

Suite 600 (former Sears) has been leased and is currently undergoing renovations for use by a company affiliated with the Gallery owner. Suite 500 (former Macy's Men's/Children's/Home) was leased by Christ the King Hope Church and is currently being renovated to become a community center and home of the church and its huge congregation. Suite 300 was recently leased for use as indoor recreation. The south portion of the space will offer non-stop excitement for the entire family in Slingshot Adventure and Play Zone, which will offer unique, interactive, gamified entertainment that will be the first of its kind in the State of Washington. The north side of the space will house the Playtime Pickleball Club, a premium indoor pickleball facility offering 8 state-of-the-art cushioned courts, plus a players' lounge, a pro-shop and a coaching staff, all for players of all ages and skill levels.

Suite 700, with its premium location, remains available for lease. It is located on the west side of the site and can be seen for a great distance by those traveling in either direction on Interstate 5. The suite is in essentially the same condition as when previously open for retail business. Renovations, whether minor or major, are anticipated.

In addition to the suites occupied by these former major tenants, the interior of the mall is comprised of a total of 123,354 sf of former inline suites that were previously leased by a wide variety of retail and service businesses. While the leasing of space in the interior of the mall will probably not occur until Suite 700 is leased, proposals to consolidate a number of the interior suites and to convert the combined area into new uses will be welcomed.

A companion company using the same leasing agent has converted the former Outlet Shoppes at Burlington (renamed "Burlington Plaza") that lies less than one-half mile due south of Burlington Gallery into a blend of retail and commercial permitted uses governed by the same zoning regulations. Burlington Plaza offers a range of smaller suites ranging in size from 2,000 to 16,000 sf available for immediate occupancy.

Enclosed/Inline				
Vacant	123,354			27.63%
Total Mall	446,430			100%

HIGHLIGHTS

Location

Burlington Gallery is bounded on its west side by Interstate 5 with 2,310 lineal feet of frontage and on its east side by Burlington Boulevard. The combined vehicle count is in excess of 100,000 per day. Burlington is midway between Seattle and the Canadian border at the Peace Arch crossing, just north of which live the 2.7 million residents of lower mainland British Columbia. Burlington Gallery lies directly between Interstate 5 Exits 229 and 230. Exit 230 is the intersection of Highway 20 and Interstate 5.

Use

With the recent change in zoning and the pro-business attitude for which Burlington is known, there is an opportunity to incorporate non-traditional retail and non-retail uses in the property, including indoor recreation, medical, office, institutional and government uses. See page 10 for zoning details.

Parking

Approximately 2,248 separate parking stalls are available on-site, insuring that more than sufficient parking will be available to any user permitted under the current zoning.

Outstanding Visibility

The average daily vehicle count on Interstate 5 on the west side of Burlington Gallery is over 76,000. The view of the mall from both the southbound and northbound lanes is unimpaired along the entire 2,310 lineal feet of frontage. The daily traffic count along Burlington Boulevard on the east side of the mall is also impressive at over 25,000 vehicles per day travelling at much lower speeds with a similar viewing distance.

Access

Burlington Gallery offers easy access, with seven points of vehicle ingress and egress from Burlington Boulevard and Cascade Mall Drive.

Burlington

Burlington lies at the center of beautiful Skagit County. The City has a well-deserved reputation for welcoming business growth and a high quality of life. It also features a strong and growing economic base, a large employment base and an expanding population.

SITE PLAN

ZONE DESCRIPTION

Zoning District: Mixed Use Commercial – MUC-2

This zone is intended to implement the MCU comprehensive plan designation by accommodating a dense mix of large scale commercial activities and residential uses such as stores, eating and drinking establishments, and offices, and large multiunit residential buildings. Uses permitted in this zone typically rely on a high degree of visibility. Easy pedestrian access, and a dense concentration of shoppers and residents. Uses that could discourage pedestrian traffic and recreational shopping, such as car lots, drive-through business, or gas stations are restricted or prohibited.

Permitted Uses

- Multiunit buildings, all sizes, and dwellings located in a mixed use buildings
- **Retail – all sizes**
- Horizontally attached dwellings
- **Offices – all types**
- **Indoor commercial entertainment – all types**
- Private passenger transportation terminals
- **Meeting facilities – all sizes**
- **Commercial child day care centers – all sizes**
- **Private schools – all sizes**
- **Health care facilities – all sizes**
- **Veterinary clinics**
- Hotels
- Nursing homes, all sizes
- **Eating and drinking establishments – all sizes**
- **Specialized Uses**
- Theaters

Conditional Uses – (Selective)

- Craft industries – some limitations
- Laboratories and research facilities
- Hospitals
- Pet Boarding, Daycare
