I am proud of my work on the Shopping Tower, for it is one of the most unusual structures in the country. The idea of 'vertical shopping' is somewhat new, but I believe the idea will become very popular in all cities during the next few years.

- Henry W. Bittman, Seattle Times

Originally known as the United Shopping Tower, Olympic Tower was built in 1929

1929

Due to the Great Depression, the once uniquely designed retail shopping center was converted into offices

1932

In the early 1980's, the building was renamed Olympic Tower
