Opportunity to work in one of the top five large historical buildings in Bellingham, WA. The Crown Plaza is a tenanted, stabilized, and iconic building in the core of downtown Bellingham. Built-in 1927, this Neoclassical-style building is five stories with a mechanical basement.

Beautiful professional office building with fiber optic internet. Renovated historic building with an elegant interior. Great location in the heart of Bellingham's central business district. Close to the city, county, and federal buildings. Hundreds of services to support your business needs within a few blocks. Abundant shopping and dining opportunities. Within walking distance to everything.

Building History

This building was initially known as the Montague & McHugh building, built on the corner of Magnolia and Commercial streets. Famous for its Neoclassical Commercial design, the five story structure was created with reinforced concrete covered in terra cotta. The terra cotta itself is glazed in a faux marble gray-pink that gives the building its distinctive look.

The building is almost square, 125 feet by 110 feet. Graham created a symmetrical appearance by adjusting the spacing of the features to keep things in proportion. There are rounded pediment arches, an ornamental frieze, spiral columns with finials, and rising fluted pilasters. The ornamentation of the outside of the building, particularly the first and second floors, is an astonishing amount of detail work. Within each pediment is a cartouche flanked by floral panels. Graham used friezes, vertical piers, and urn finials, as well as a projecting cornice with overhanging dentils in his work. The parapet has a floral cresting rising over a foot above it.

The third and fourth floors are less ornamental, but the windows and vertical elements continue in the same pattern for continuity. There are still architectural elements such as fluted pilasters, spandrels, and medallions. The ornate features of the building helped it stand out as downtown grew around it.
