The site consists of three buildings totaling approximately 12,760 SF (7,720 SF, 1,920 SF, and 3,120 SF), on a 1.51 acre lot, providing flexibility for a wide range of operations including automotive, contractor, fleet service, and light industrial users. The multi-building configuration allows for separation of uses such as shop, storage, office, and breakroom enhancing operational efficiency.

The property includes yard area for outdoor storage and equipment staging, a key feature that is increasingly limited in the current market. LOCATION OVERVIEW

Located in the northwest corner of Washington State near the Nooksack River, Ferndale was officially incorporated on March 19, 1907.
