City of Burien Zoning

Revised by ORD. 712 - Effective August 26, 2019

CC-2 ZONING

The Community Commercial (CC) zones implement the Community Commercial Comprehensive Plan designation. To recognize the differences in surrounding neighborhood character and intensity between the designated Community Commercial areas, two CC zones have been established: CC-1 and CC-2. The purpose of these zones is to establish areas for moderate intensity commercial uses that serve the community. The intent is to provide for a variety of goods and services in areas which are designed to encourage pedestrian and transit access, be compatible with adjacent residential neighborhoods, and be consistent with road and utility capacity. The CC-1 zone allows for lower-intensity uses in the Community Commercial-designated areas that are near downtown Burien and along 1st Ave. S. Near S. 176th St., that could be compatible with the adjacent single-family and low-density multi-family areas. The CC-2 zone allows for higher-intensity uses in the Community Commercial-designated area at Five Corners that could be compatible with the adjacent regional commercial, office, high density multi-family areas.
