PERFECT LOCATION AT “MAIN AND MAIN”

This is a fully operational turnkey restaurant and bar building featuring outdoor live music stage with beer garden and roof top deck. Perfectly situated downtown Cle Elum and highly convenient for locals, visitors and passers by.

The building was turned inside out and completely rebuilt in 2021 with all new systems including the additional kitchen building, new roof, reinforced structure, rooftop deck, HVAC, fire sprinklering and electrical system upgrades. The restaurant layout was

designed by one of Seattle’s most well-known chefs with the intention for dual concepts that included two kitchens both with a type 1 hood.

The building's interior design combines high ceilings with reclaimed wood, repurposed materials, and contemporary lighting. Polished concrete floors, white brick walls, and a mix of modern farmhouse and mountain-chic aesthetics create a warm and inviting atmosphere. Highlights include a 40-person dining area, a 20-person full bar, a partially covered beer garden and bar, a music venue, and a rooftop terrace with bar offering breathtaking mountain views.

The layout lends to three distinct experiences. Beer garden with casual food and walk-up window, roof top lounge and bar and an indoor restaurant making this a perfect space for a coffee to cocktail type of operation or a casual concept combined with a more elevated experience.
