CITY OF HEYBURN, COMMERCIAL GENERAL ZONE

The purpose of this zone or district to provide for and encourage the grouping together of business, retail, public, quasi-public, and other related uses with minimal light industrial uses capable of being operated under such standards as to location and appearance of buildings and treatment of land around them that they will be unobtrusive and not detrimental to surrounding commercial or residential uses. The light industrial uses permitted in this zone are manufacturing and wholesale business establishments which are clean, quiet and free of hazardous or objectionable elements such as noise, odor, dust, smoke or glare operated entirely within enclosed structures which generate little industrial traffic. This zone or district is further designed to accent a transitional use between industrial uses and other less intense business and residential uses.

For additional zoning information, click the link below.
