EXECUTIVE SUMMARY

OFFERING

Paragon Real Estate Advisors is pleased to present a prime owner/user opportunity located in the heart of Tacoma's Manitou neighborhood. This 2,445-square-foot commercial building is strategically positioned at the high-traffic intersection of South 74th Street and Tacoma Way, offering maximum visibility and direct exposure along one of the city's most established retail corridors. With seller financing available on attractive and negotiable terms, this property presents flexible acquisition options for both investors and owner-occupants.

Built in 2008, the building features modern construction and a well-maintained exterior, providing long-term peace of mind for prospective buyers. The property is thoughtfully designed with a large open-concept showroom on the ground floor, showcasing vaulted ceilings and abundant natural light. Upstairs, a mezzanine level includes private office space and an exclusive restroom—ideal for administrative functions, employee use, or future tenant needs. The layout supports a wide range of commercial uses and can easily adapt to retail, service-based, or professional operations.

This offering provides multiple paths for value creation. An investor could lease up the currently vacant space to generate immediate rental income and take advantage of rising demand in Tacoma's commercial sector. Alternatively, an owner-user can relocate their business to a highly visible, turnkey facility with exceptional signage and branding potential. Its proximity—just five minutes—to Interstate 5 ensures seamless access to the greater Tacoma area and the broader Puget Sound region.

Whether you're looking to expand your business footprint or enter the Tacoma real estate market with a low-maintenance, well-located asset, this property offers a compelling blend of functionality, exposure, and long-term upside. Don't miss the opportunity to acquire a high-quality commercial building with flexible use potential and favorable purchase terms in one of Tacoma's most active commercial corridors.
