SITE MAP

## NEIGHBORHOOD COMMERCIAL 2

A moderately-sized pedestrian-oriented shopping area that provides a full range of retail sales and services to the surrounding neighborhood, such as medium-sized grocery stores, drug stores, coffee shops, customer service offices, or medical/dental facilities. Building types are single-purpose commercial structures, multi-story mixed use and residential structures. Non-residential uses typically occupy the street front. 25,000 square feet is the maximum size for some commercial uses.

## HEIGHT LIMIT

55 Feet.

## PEDESTRIAN-DESIGNATIONS (P)

Designations are applied to NC and zones along pedestrian-oriented commercial streets. The P designation preserves and encourages an intensely pedestrian-oriented, retail-shopping district where non-auto modes of transportation both to and within the district, are strongly favored.

## TYPICAL LAND USES

Medium-sized grocery stores, drug stores, restaurants, coffee shops, customer service offices, medical/dental facilities and apartments.

## BUILDING TYPES

Single purpose commercial structures, multi-story mixed-use and residential structures. Non-residential uses typically occupy the street frontage.

## STREET-LEVEL USES

No limit on mix of residential and non-residential uses, except where P zones or other mapped areas limit residential presence at street level.

## MAXIMUM SIZE OF COMMERCIAL

25,000 SF for most uses; 50,000 for multipurpose retail sales facilities.

## PARKING LOCATION

Parking must be located at the rear or side of a building, within a structure, or off-site within 800'. Parking between a building and a street is not allowed. Parking to the side of a building is limited to 60' of street frontage. Within a structure, street-level parking must be separated from the facade by another permitted use.

## PARKING ACCESS

Parking access must be from the alley or a non-principle pedestrian street. If not feasible, parking access is limited to a single two-way curb cut on a principal pedestrian street.

## "M"-DESIGNATIONS (MHA)

Indicates a Mandatory Housing Affordability (MHA) Requirement. A percentage of new development must include affordable housing units or developers must pay into a fund that will support the development of affordable housing.
