EXECUTIVE SUMMARY

This rare two-location opportunity offers exceptional visibility, flexibility, and reach across the greater Puget Sound region. Each site may be acquired individually or together as a paired network of high-profile retail or dealership facilities.

Strategically positioned in two of Western Washington's most active commercial corridors, these properties offer the unique ability to serve distinct yet complementary markets. Fife provides unmatched highway exposure and logistical access along the I-5 corridor, while Silverdale anchors a vibrant retail

hub with strong demographics and continued regional growth. Together, they create an ideal platform for businesses seeking both operational efficiency and customer-facing visibility across the South and West Sound markets.

With business-friendly jurisdictions, robust local economies, and long-term growth trajectories, this portfolio represents a compelling opportunity to control two well-located assets in markets that continue to attract strong commercial demand.

Real estate sale only – business and licensing sales to be negotiated separately.

A complex, abstract graphic composed of numerous thin, light-colored lines that intersect to form a series of overlapping, irregular polygons and rectangles. The lines are arranged in a way that creates a sense of depth and perspective, resembling a stylized architectural drawing or a wireframe model of a building. The overall effect is a dynamic, geometric pattern that fills the left side of the page.

A complex, abstract geometric line art graphic in a light gold color. It consists of numerous thin lines that intersect to form a series of overlapping, irregular polygons and rectangles, creating a sense of depth and architectural structure. The lines are primarily oriented vertically and horizontally, with some diagonal lines adding to the complexity. The overall effect is a modern, minimalist architectural sketch.
