DEVELOPMENT POTENTIAL

Mixed Maritime and Logistics (MML)

Purpose: This zoning is designed to support a mix of maritime and logistics-related uses. It encourages activities that benefit from proximity to waterfront and shipping facilities.

Uses: Permitted uses include shipping, logistics, manufacturing, storage, and other industrial operations that require water access.

Urban Village Overlay (U)

Integration: This overlay allows for a blend of industrial, commercial, and residential uses, promoting a more versatile and sustainable development approach.

Community Focus: Aims to create a balanced community with spaces for living, working, and recreation, enhancing the overall neighborhood quality.

Height Limit of 65 Feet

Development Potential: The zoning permits structures up to 65 feet in height, providing significant flexibility for future redevelopment projects.

Vertical Growth: Allows for multi-story buildings, which can accommodate a range of uses from residential units to commercial spaces, maximizing the land's value.
