## EXECUTIVE SUMMARY

**INVESTMENT OVERVIEW**

The Deaconess presents a unique opportunity to acquire a well-performing, **Opportunity Zone investment, mixed-use property** located in the heart of **Downtown Wenatchee**—a market experiencing steady growth and limited new supply. The asset combines **affordable multifamily housing and multi-tenant office space**, offering investors diversified income streams in a high barrier-to-entry location.

**Offering Flexibility**

While the property is being marketed as a single package, **The Deaconess is already condominium-mapped**, allowing the **residential and commercial components to be sold separately** if desired. This flexibility provides multiple exit strategies for investors.

**Property Highlights**

- **26 residential units** under the **Low-Income Housing Tax Credit (LIHTC)** program, currently in the **extended-use period (post-Year 15)**. These assets allow an investor to obtain more favorable financing due to local banks' need for CRA points.
- **Commercial component** featuring **multi-tenant office suites** with strong tenant retention and stable occupancy. These multi tenant buildings perform well in Eastern Washington due to lack of current product and the cost of construction.
- **Condominium structure** enables separate ownership of the apartment and office portions.
- **Significant recent capital improvements** enhancing long-term durability and operational efficiency.
- **Strong In place Cash Flow** Building is well performing, and occupancy is strong with no delinquency. With the debt available on the project as a whole and separately an investor can expect to achieve a cash on cash return in the high single digits year 1.
